## Message from Guest of Honour

It is a great pleasure to be invited as the Guest of Honour at the 9th Malaysian Financial Planning Council (MFPC) graduation ceremony.

Since its establishment in 2004, MFPC has demonstrated continuous commitment in promoting the performance enhancement and growth of the financial planning profession.

This special day is a testament to its success, as we celebrate over 2,400 graduates who had persevered since 2019, going through lockdowns in 2020 and 2021, to complete their respective programmes.

As we continue to face a highly challenging time globally and domestically, building financial resilience is of critical importance. Malaysians must strive to equip themselves with the necessary knowledge to plan and manage their finances in order to become financially resilient.

This is where you, as practitioners, play a vital role in helping your clients enhance their ability to make sound financial choices that help secure a resilient financial future for them and their loved ones.

My heartiest congratulations to all graduates for successfully being conferred as professionals in financial planning. May your commitment to self-improvement translate into improvements in your job prospects and a fulfilling career.

Thank You.

Warmest greetings from the Life Insurance Association of Malaysia!

Let me begin by congratulating all those who will be graduating today. You have successfully achieved your goal in pursuing professional programmes in the industry, a noble profession in educating Malaysians on financial planning and protection.

I would also like to laud the efforts of MFPC for its continued commitment in producing professionals and qualified financial planners, with the hope to educate more Malaysians particularly the young generation, a key target segment in the industry's consumer education agenda. The industry believes that it is crucial for the young generation to be well equipped with financial knowledge and understanding on personal financial planning so that they can make better informed financial decisions.

Let's continue to work together with the industry to educate the rakyat on the importance of financial planning and protection. This is to fulfil the nation's financial inclusion agenda by narrowing the protection gap and increasing life insurance ownership in the country. The

industry's aspiration is outlined in the Financial Sector Blueprint 2022-2026, which reiterates our commitment to building a dynamic and sustainable industry-led talent. This can be achieved by developing and implementing future skills framework and to align existing requirements on training and development.

On behalf of the Employees Provident Fund (EPF), it is my pleasure to congratulate all graduates of the MFPC's 2022 Registered Financial Planners (RFP) / Shariah and Associate Members! The EPF is honoured to be the Lead Strategic Partner for the 9th MFPC Graduation Ceremony and Hi-Tea, Conference 2022 and Associate Events.

I wish to express my heartfelt gratitude to MFPC for continuing the legacy in empowering Malaysians through financial education and programmes. It is my sincere hope that many more programmes, such as the RFP / Shariah Programme, could be mobilised as they aim to help Malaysians identify their short and long-term financial goals, make a plan to achieve those goals, and execute the plan. These goals could include saving for higher education, navigating debt repayment, and most importantly, planning for retirement.

The EPF is committed to helping MFPC in promoting financial literacy to all Malaysians, especially in the post-pandemic environment whereby much value is placed in building a more prepared society to overcome existing financial insecurities and other uncertainties.

I congratulate you once again as you have already taken that first step to bridge the gap between your ability and ambition.

My heartiest congratulations to all graduates. Your achievement marks the beginning of your professional journey. However, it is just the start as continuous professional development is not an option but a necessity for success.

The financial services profession has seen many changes. Consumers today don't want to be sold products. They want licensed professionals for advice and holistic financial solutions.

Therefore, I strongly encourage you to acquire the required licences to practise and be truly independent in serving the evolving needs of consumers.

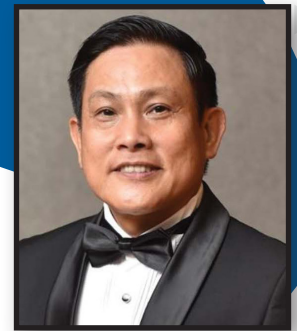

You have taken the first step and believe FA is the future. Let me illustrate the enormous growth potential of the Malaysian FA industry. Singapore has 62 financial planning firms and about 5,000 representatives

servicing a 3.7 million working population and with 26% of the life insurance market share. However, in Malaysia, to date, we have 37 FA firms with only about 1,300 FARs serving a 15 million working population. With the same ratio, Malaysia should have 20,000 FARs.

The FA industry in Malaysia is thus like a Blue Ocean, just waiting to be explored.

To end, I welcome you to the financial planning fraternity and wish you much success in all your endeavours.

# MFPC RFP Best Student

## Lim Jing Kiat, RFP 2019

Registered Financial Planner is one of the highest professional standard in financial industry. Therefore with our knowledge, we should serve more, educate more and help more of innocent Malaysians from making financial mistakes!

## Pon Hai Yang, RFP 2020

Getting the best student award is undoubtedly a surprise for me. The intention for completing the RFP Program is kept unchanged since day one till now – which is to learn the best from the best, convert it to valuable knowledges and deliver it practically to the mass market. Financial planning is always what I want to pursue in my life. This award had motivated me to do better and also act faster, so that more people can understand and enjoy the true value of financial planning. I urge all talented advisors and scholars in this industry to share more with the public, so that financial planning can be a common service enjoyed by everyone but not selected group. Let's strive towards this goal together!

## Bryan Chan Vee Beng, RFP 2021

When I decided to start out on my RFP journey in 2018, it was merely to understand the inner workings of the financial industry out of a long-time interest and also due to certain unpleasant experiences. Never did I imagine that fast forward to today, I would have completed the whole program. Throughout the program, I come to appreciate and realize that this is indeed a very noble profession that a person can take up, especially in today's world.

It is my hope that the RFP graduates past, present and future that walk down this path, always have their Module 1 – Chapter 1: The Financial Planning Environment, Phenomenon, & Process and Chapter 3: Ethics & Professionalism by their side at all times as a guiding light.

We must dispense advice and products professionally and ethically, and know the impact that we have on others. If I may, I could sum it up as follows:

**WHY?** Helping others is at the heart of it all. We strive to inspire and empower the people we meet so that they are able to transform their financial situation.

**WHAT?** We are Qualified, Competent and Current. **HOW?** We are Transparent, Professional and Ethical.

It may sound idealistic but as long as we live and carry ourselves this way, we will not stray off too far from the right path while reaping the manifold rewards.

# MFPC Shariah RFP Best Student

## Zahiruddin Saruji, Shariah RFP 2019

The Prophet ﷺ was asked, "Who is the best amongst people?" He replied, "The best of people are those who are most beneficial to others"

I was an engineer for 12 years. I was trained to solve problem whenever it arises and always aim for improvement. Eventually, it became my nature as a person.

So, when I first involved in the financial industry as Unit Trust Consultant with an aim to improve people's wealth, I realize that the knowledge I had at that time is not enough to better people's life. People need more than just making investment. They need real financial management advise.

Hence, I realize that I need to equip myself with the proper and holistic financial knowledge if I really want to help people. Then, I will be able to help more people and elevate their financial status. With that conviction, I challenged myself to pursue the professional path with Malaysian Financial Planning Council.

Today, I am proud to call myself Shariah Registered Financial Planner.

I would like to thank my wife, Siti Fatimah, my family, my team; The Sophisticated Investor and to my Financial Mentor, Alwi Adam that always support me in this journey.

Alhamdulillah.

## Zawanah Zianah Binti Zaharen, Shariah RFP 2020

It is a privilege to be given the opportunity to learn a subject that is both practical and beneficial. Shariah RFP course co-organized by MFPC and EPF Learning Campus definitely fit those criteria. The concepts and steps taught in this course are logical and can be easily applied in managing personal finances as well as in assisting family members and friends with their Shariah financial planning needs. Some tips to share on the assignment:

1. Define term-based financial goals explicitly as these pivot the analysis.
2. Clearly state all assumptions.
3. Look out for new products to propose.
4. Never be afraid to get creative and suggest out-of-the-box solutions.
5. If ever get stuck, seek help - course mates and MFPC tutors are more than willing to assist.
